

1. Recovery Literature—Pick Two (percentage)

2. Service Material—Pick Two (percentage)

3. Issue Discussion Topics—Pick Two (percentage)

Regional responses

1. Recovery Literature

1a. Other (please specify)

(no responses)

1b. If you chose "revise another piece of NA literature" above, what is it?

All of

Just for Today Daily Meditation

Step working guide for people not new to the steps.

2 The Sponsorship Book

Lit targeted to younger members

1c. Any other comments about the previous section?

There were a lot of topics to choose from, making it difficult to narrow down to the top two. Our Region had a wide range of priorities, however we did manage to come to a somewhat common ground.

Too many options

Yes, several have asked about meetings for deaf also Literature for the blind

Sponsorship

We actually had a tie between lit targeted between older, younger members and the IP Regardless of Age, race....etc. I chose the last option because I felt the first two cancelled themselves out.

no more new recovery literature

I think it's time to take a more in depth look at the concepts

Focus more time and money on Updating and translating current IPs so our fellowship could be truly unified and not so exclusive to addicts who do not understand English.

The NJ region has about 450 groups. Of those groups only 47 responded to this survey. The top 2 with the highest votes are those that were chosen because we can not see another way to determine how to submit this. They received 8 and 15 votes respectively. It is very hard for me to conclude that this is my regions conscience when only this small minority is determining the conscious of the entire region. I feel this system is flawed if you actually are interested in a regional conscience. Please keep in mind that there were over 400 groups, made aware of this survey, and that for whatever reason did not respond.

In close third place was "Concepts book similar to Guiding Principles."

Ninguno

The H&I guidelines desperately need revision and a pamphlet on developing meetings for young addicts

2. Service Material

2a. Other (please specify)

Guide to local service

NA Insurance

2b. Any other comments about the previous section?

Our Regional Conscience was tied for “atmosphere of recovery in service” along with the 2 selected responses to do with the SSP

Too many options

We only had 18 responses from our entire region. This isn't indicative of a good sampling of our region... but it's the best I could do. Because of the poor response rate, I think this isn't an effective way to choose our literature priorities.

Atmosphere of recovery in service

3. Issue Discussion Topics

3a. Other (please specify)

Translate current literature

3b. Any other comments about the previous section?

None

having fewer choices, as we did in this section, compared to the others, was beneficial.

All NA members should have the opportunity to provide input for IDTs. This survey is exclusive to our fellowship

The NJ region has about 450 groups. Of those groups only 47 responded to this survey. The top 2 with the highest votes are those that were chosen because we can not see another way to determine how to submit this. They received 11 and 18 votes respectively. It is very hard for me to conclude that this is my regions conscience when only this small minority is determining the conscious of the entire region. I feel this system is flawed if you actually are interested in a regional conscience. Please keep in mind that there were over 400 groups made aware of this survey, and that for whatever reason did not respond.
